## Market Report for October 7<sup>th</sup>, 2021

It is a very busy time out in the country! Milo harvest, bean harvest, corn harvest, silage cutting, putting up hay, and, yes, drilling wheat, and guess what? All happening at once! This seems to be why the cattle have taken a back seat on many operations. With good yields and good prices it is very understandable. Just don't forget to check on your calves, with mixed temperatures this time of year can be challenging, even for the best mama cow! Next week looks like several feeders will be in town and our first big calf run October 21<sup>st</sup>. Auction was a light offering in all classes but market seemed ok.
